

Message

Scientific discoveries rely on creative thinking, and dissemination of the scientific findings. UJPR provides platform for scientific dissemination of research finding in wide areas such as pharmaceuticals, chemoinformatics, medicinal chemistry, biomedical informatics, aryurvedics e.t.c. UJPR is an international journal with vigorous review process that meet international standards. The journal has outstanding editorial and review board members with reputable experience in their area of expertise. UJPR is indexed and in more than 40 well known indexing services such as CAS, CASSI (American Chemical Society), DRJI, BASE, Directory of Science, ROAD, ESJI, COSMOS, Academic Keys.

I highly recommend researcherto publish their research on this prestigious journal in the next issue.

Dr. Peter Juma Ochieng 

Biotech Research Center (BRC), Obuda University, Hungary.
